(a) Excess of Births over Deaths.

(b) Excess of interstate and oversea arrivals over departures. Interstate migration relates to recorded movements by rail, sea, and air and certain special movements by road.

(c) At end of each period. For each date subsequent to the census of 30th June, 1954, the estimated population represents the population ascertained at the census plus natural increase and net migration since that date. As complete records of interstate migration are not available the estimated population so derived is subject to revision at the next census.

(d) At middle of each period to 1955-56 and at end of each period thereafter.

n.a. : Not available.

NOTE : Population increase of the State is the sum of natural increase and net migration.
